

SCHOOL-BASED HEALTH CENTER NOTICE OF PRIVACY PRACTICES

THIS NOTICE DESCRIBES HOW MEDICAL INFORMATION ABOUT YOU MAY BE USED AND DISCLOSED AND HOW YOU CAN GET ACCESS TO THIS INFORMATION. PLEASE REVIEW IT CAREFULLY.

Access Health Louisiana's School-Based Health Center (SBHCs), are sponsored in partnership with the School District, and are required by law to maintain the privacy of your protected health information and to provide you with notice of its legal duties and privacy practices with respect to your protected health information. This Notice of Privacy Practices describes the legal obligations of the SCHOOL-BASED HEALTH CENTER and your legal rights regarding your protected health information held by Access Health Louisiana under the Health Insurance Portability Act of 1996 (HIPPA). HIPPA protects only certain information known as "protected health information" or "PHI". Generally, PHI is individually identifiable health information, including demographic information, collected from you or create or received by a health care provider, a health care clearinghouse, a health plan, or your employer on behalf of a group health plan, that relates to: (1) your past, present, or future physical or mental health condition, (2) the provision of health care to you; or (3) the past, present, or future payment for the provision of health care to you.

You are asked to provide a signed acknowledgement of receipt of this Notice. Our intent is to make you aware of the possible uses and disclosures of your PHI and your privacy rights. The delivery of health care services will in no way be conditioned upon your signed acknowledgement. If you decline to provide a signed acknowledgement, we will continue to provide your treatment, and will use and disclose your PHI for treatment, payment and healthcare operations when necessary.

School-Based Health Center: We consent to the exchange of relevant health information (including information about physical exams, health histories, and other information) between the school nurse program and the health center staff as needed in order to facilitate evaluation of this student's health needs, special education multi-disciplinary referrals, and immunization records. We understand that due to the confidential nature of services provided at the health center, only information regarding crisis or threat of grave or serious harm to self or others will be shared with the school principal. Your medical record will be maintained in electronic form as a single unified medical record and may be used by the School-Based Health Center for treatment, payment, and healthcare operations purposes. Any request for your medical record will encompass the entire unified record unless otherwise specified by you in a written authorization.

Each time a student visits an Access Health Louisiana sponsored SCHOOL-BASED HEALTH CENTER, a record of the visit is made. This information, often referred to as your health or medical record, serves as a:

- Documentation of your students symptoms, examinations and test results, diagnoses and treatment;
- Means of communication among the many health care providers who contribute to your care;
- Means by which you or a third-party payer can verify that services billed were actually provided;
- Source for information for public health officials charged with improving the health of the state and the nation; and
- Tool with which we can assess and continually work to improve the care we render and the outcomes we achieve.

Understanding what is in your record and how your health information is used helps you to: ensure it is correct, better understand who, what, when, where and why others may access your health information, and make more informed decisions when authorizing disclosure to others.

HOW WE MAY USE AND DISCLOSE YOUR PROTECTED HEALTH INFORMATION

All Access Health Louisiana School-Based Health Centers collect PHI from you and stores it in an electronic medical record chart on a computer. This is your medical record. The medical record is our property, but the information in the medical record belongs to you. We protect the privacy of your PHI. The following categories describe the different circumstances the School-Based Health Center may use or disclose your PHI without obtaining your prior authorization and without offering you the opportunity to object. Not every use or disclosure in a category will be listed. However, all of the ways we are permitted to use and disclose PHI will fall within one of the categories.

- **For Treatment:** We may use and disclose your PHI to provide treatment to you. We may disclose your PHI to other providers, doctors, nurses, technicians, medical students, or other personnel who are involved in taking care of you at the School-Based Health Center. For example, a nurse practitioner treating you for a broken bone may need to know if you have diabetes because diabetes may slow the healing process. In addition, the doctor may need to tell the dietitian if you have diabetes so that he or she can arrange for appropriate meals. Different departments of the School-Based Health Center may also share medical information about you in order to coordinate the different things you need, such as medications, lab work, and xrays, and we may disclose your PHI to third parties with whom we coordinate to manage your care.
- **To Obtain Payment:** We may use and disclose your PHI as requested from your health plan payer, in order to be reimbursed for the services we provide to you. For example, we may release to Medicaid the service we rendered to you and your diagnosis. Your insurance company may ask for information to determine when a condition was first diagnosed.
- **For Health Operations:** We may use and disclose your PHI for our day-to-day operations and functions, such as quality assessment/improvement activities, business planning and development, and resolution of internal grievances. For example, we may compile your health information, along with that of other patients, in order to allow a team of our health care professionals to review that information and make suggestions concerning how to improve the quality of care provided at our School-Based Health Center. We may also disclose information to doctors, nurses, technicians, medical students, and other School-Based Health Center personnel for review and learning purposes and to improve the quality and effective of the services you receive.
- **To Business Associates:** We may contract with individuals or entities known as Business Associates to perform various functions on our behalf or to provide certain types of services. In order to perform these functions or to provide these services, Business Associates will receive, create, maintain and/or transmit PHI about you, but only after they agree in writing with us to implement appropriate safeguards regarding your PHI.
- **Health-Related Benefits and Services:** We may contact you about health-related benefits or services, such as disease management programs and community-based activities in which we participate, that may be of interest to you.

- **For Communications:** We may contact you to provide appointment reminders, information about treatment alternatives or request that you contact us to discuss medical information. We will leave these messages with whoever answers your phone, if you are unavailable, or on your answering machine.
- **Research:** Under certain circumstances, we may use and disclose health information about you for research purposes through a special approval process designed to protect patient safety, welfare, and confidentiality. This process evaluates a proposed research project and its use of medical information, trying to balance the research needs with patients' need for privacy of their medical information. For example, a research project may involve comparing the health and recovery of all patients who received one medication to those who received another, for the same condition. We may also disclose health information about you to people preparing to conduct a research project, for example, to help them look for patients with specific medical needs, so long as the information they review does not leave School-Based Health Center Electronic Medical Record.
- **Required by Law:** As required by federal, state or local law, we may use and disclose your PHI.
- **To Avert a Serious Threat of Health or Safety:** We may use and disclose health information about you when necessary to prevent a serious threat to your health and safety or the health and safety of the public or another person. For example, you could ask that we not use or disclose information about a surgery you had.
 Except as provided below, we are not required to agree to the restriction that you request. If we do agree, we will comply with your request unless the information is needed to provide you emergency treatment.
 Effective April 1, 2022, we will comply with any restriction request if (1) except as otherwise required by law, the disclosure is to a health plan for purpose of carrying out payment or health care operations (and is not for purposes of carrying out treatment); and (2) the protected health information pertains solely to a health care item or service for which the Access Health Louisiana sponsored School-Based Health Center has billed commercial insurance or Medicaid. The School-Based Health Center is not responsible for notifying subsequent health care providers of your request for restrictions on disclosures to health plans for those items and services, so you will need to notify other providers if you want them to abide by the same restriction.

Requests must be in writing and specify how and where you wish to be contacted. You will be responsible for the additional costs, if applicable.

Usually, this includes medical and billing records, but does not include psychotherapy notes, information compiled in anticipation of or for use in civil, criminal or administrative proceedings, or certain information that is governed by the Clinical Laboratory Improvement Act. If the requested PHI is maintained electronically and you request an electronic copy, we will provide access in an electronic format you request, if readily producible, or if not, in a readable electronic form and format we mutually agreed upon. We may charge a reasonable cost-based fee consistent with HIPPA and Louisiana law. Despite your general right to access your PHI, access may be denied in limited circumstances. For example, access may be denied if you are a participant in a research program that is still in progress. Access may be denied if the federal Privacy Act applies. Access to information that was obtained from someone other than a health care provider under a promise of confidentiality can be denied if allowing you access would reasonable be likely to reveal the source of the information. The decision to deny access under these circumstances is final and not subject to review. Otherwise, we will provide a written explanation of the basis for the denial and your review rights.
 To inspect and copy medical information that may be used to make decisions about you, you must submit your request in writing.
